

Producing dialogue with exceptional precision, this speaker was specifically designed to be used in home theatre systems. With its subtle design, the Sonix Mk3 blends into its surroundings.

High frequencies are delivered by a 26mm ring radiator tweeter, with central waveguide for improved intelligibility and transparency. Bass and midrange are delivered by dual 100mm drivers, with dual front ports releasing bass energy forward – making it ideal for placing inside your TV cabinet.

Perfectly sized for placement around AV components, the Sonix Mk3 is designed to slip neatly into most TV cabinets and joinery, allowing your screen to be the hero.

For the ultimate sound experience at home, play it through Krix.

## FEATURES

- Compact size fits most TV cabinets
- Bring movie dialogue to life
- No more need for TV speakers

Sonix Mk3	
Frequency Range	65Hz - 40kHz (in room response)
Power Handling	20 - 140 Watts RMS recommended amplifier power
Sensitivity	88dB (2.83V / 1m)
Impedance	Nominal 6 Ohms (Minimum 4.2 Ohms)
Configuration	D'Appolito, 2-way
Low Frequency Driver	2 x nominal 100mm (4") doped paper cones. 26mm (1") voice coil wound on high powered aluminium former
