

Home theatre on a grand scale: this centre channel speaker produces exceptional vocal intelligibility and is designed to truly match the pace of our high energy Neuphonix Mk2 floorstanding speakers.

Multiple 130mm bass drivers deliver punchy, ground-shaking bass energy. A 130mm midrange driver and 26mm tweeter complete the picture, reproducing vocals and sound effects with meticulous precision and depth that will defy the dimensions of your room.

The fully mitred construction combined with extra bracing results in a very strong and resonant free enclosure. Other updates include a brushed aluminum terminal plate with gold plated brass binding posts and a stylish scalloped edge grille.

The Epicentrix Mk2, like the Neuphonix Mk2 has dual terminals for biwiring or bi-amping.

Bring dialogue and special effects to life. Put yourself at the epicentre of the action.

## FEATURES
